

NUVO[®]

BUFFALO

CORE-PERFORMANCE SOLID TYRE

A close-up, low-angle shot of a heavy-duty tire tread on a construction vehicle. The tire is dark and shows significant wear, with the tread pattern clearly visible. The vehicle's body is orange and partially visible in the background. The scene is set in a dark, industrial environment.

SMART

PERFORMANCE.

BUILT TO LAST.

NUVO® Buffalo is designed for customers who need **reliable, solid tyre performance** for lighter-duty applications. Manufactured locally, Buffalo delivers **efficient durability** – without compromising on NUVO®'s commitment to quality and consistency.

Buffalo is a purpose built **two-stage core performance solid tyre**.

WHERE BUFFALO PERFORMS BEST

Buffalo excels in **controlled environments**, including:

CASH-AND-CARRY

**FORKLIFT
REFURBISHMENT FLEETS**

**SUPERMARKETS AND RETAIL
DISTRIBUTION CENTRES**

**WAREHOUSING WITH SMOOTH
FLOORS AND SHORT TRAVEL
DISTANCES**

It's the ideal solution for operations seeking
dependable performance matched to their exact applications.

WHY CHOOSE NUVO® BUFFALO

EFFICIENT BY DESIGN

- Engineered to deliver the **best possible performance for longer.**
- Ideal for customers who require **8–12 hour applications.**

FUEL-SAVING PERFORMANCE

- **Low rolling resistance** reduces energy consumption.
- Supports improved fuel efficiency and lower operating costs.

ENHANCED RIM PROTECTION

- Concave sidewall design.
- Unmatched rim guard helps prevent rim damage during minor impacts and accidents.

CONSTRUCTION & COMPOUNDING

NUVO® Buffalo features a **two-stage solid tyre construction**:

BASE COMPOUND:

Provides stability and secure rim fit.

TREAD COMPOUND:

Optimised for wear resistance and smooth operation in light-duty environments.

STEEL RING REINFORCEMENT:

Maintains structural integrity and secure mounting

As with all NUVO® products, Buffalo benefits from **precision mixing**, **strict quality controls**, and **consistent manufacturing standards**.

A close-up, high-contrast photograph of a Buffalo compound structure, showing its complex, curved, and textured surface. The word "BUFFALO" is embossed in large, bold letters along the curve of the structure. The lighting highlights the metallic texture and the intricate details of the compound's design.

ENGINEERED

FOR THE RIGHT JOB

Buffalo's compound structure and design are optimised to:

- Perform reliably in **8–12-hour intermittent use**
- Deliver predictable wear in controlled environments
- Meet customer needs **without over-engineering**
