

NUVO

®

RHINO

HIGH-PERFORMANCE SOLID TYRE

BUILT FOR ENDURANCE.

ENGINEERED FOR THE

LONG HAUL.

When operations run long, loads run heavy, and conditions are unforgiving, **NUVO® Rhino** delivers unwavering performance.

Designed and manufactured in South Africa, Rhino is a **three-stage premium solid tyre** built to outperform imports in African industrial environments – day after day, shift after shift.

Whether operating in **24-hour applications**, travelling long distances under load, or working in extreme conditions, Rhino is engineered for maximum durability, stability, and longevity.

WHERE RHINO PERFORMS BEST

Rhino thrives in **harsh, high-demand environments**, including:

MINING OPERATIONS

PORTS AND TERMINALS

CONSTRUCTION SITES

**HEAVY MANUFACTURING
FACILITIES**

HIGH-LOAD WAREHOUSES WITH LONG TRAVEL DISTANCES

Its robust construction makes it the tyre of choice where **downtime is not an option** and reliability is non-negotiable.

WHY CHOOSE NUVO® RHINO

DESIGNED FOR CONTINUOUS OPERATION

- Built to operate in 24-hour applications.
- Handles long-distance travel while fully loaded.
- Exceptional heat resistance reduces risk of blowouts and compound fatigue.

REDUCED DOWNTIME

- Superior compound formulation prevents heat bursts.
- Secure fit reduces tyre movement and slipping on rims.
- Longer lifespan means fewer replacements and less disruption.

LOWER COST OVER TIME

- Premium durability translates into long-term savings.
- Fewer change-outs, reduced maintenance, improved productivity.

**NUVO®
RHINO**

ADVANCED CONSTRUCTION & COMPOUNDING

NUVO® Rhino is a **three-stage solid tyre**, engineered for strength and stability:

TREAD COMPOUND:

High-wear, heat-resistant compound designed for heavy loads and continuous use.

CUSHION COMPOUND:

Absorbs shock, reduces vibration, and improves operator comfort.

BASE COMPOUND:

Provides a solid foundation and secure rim fit.

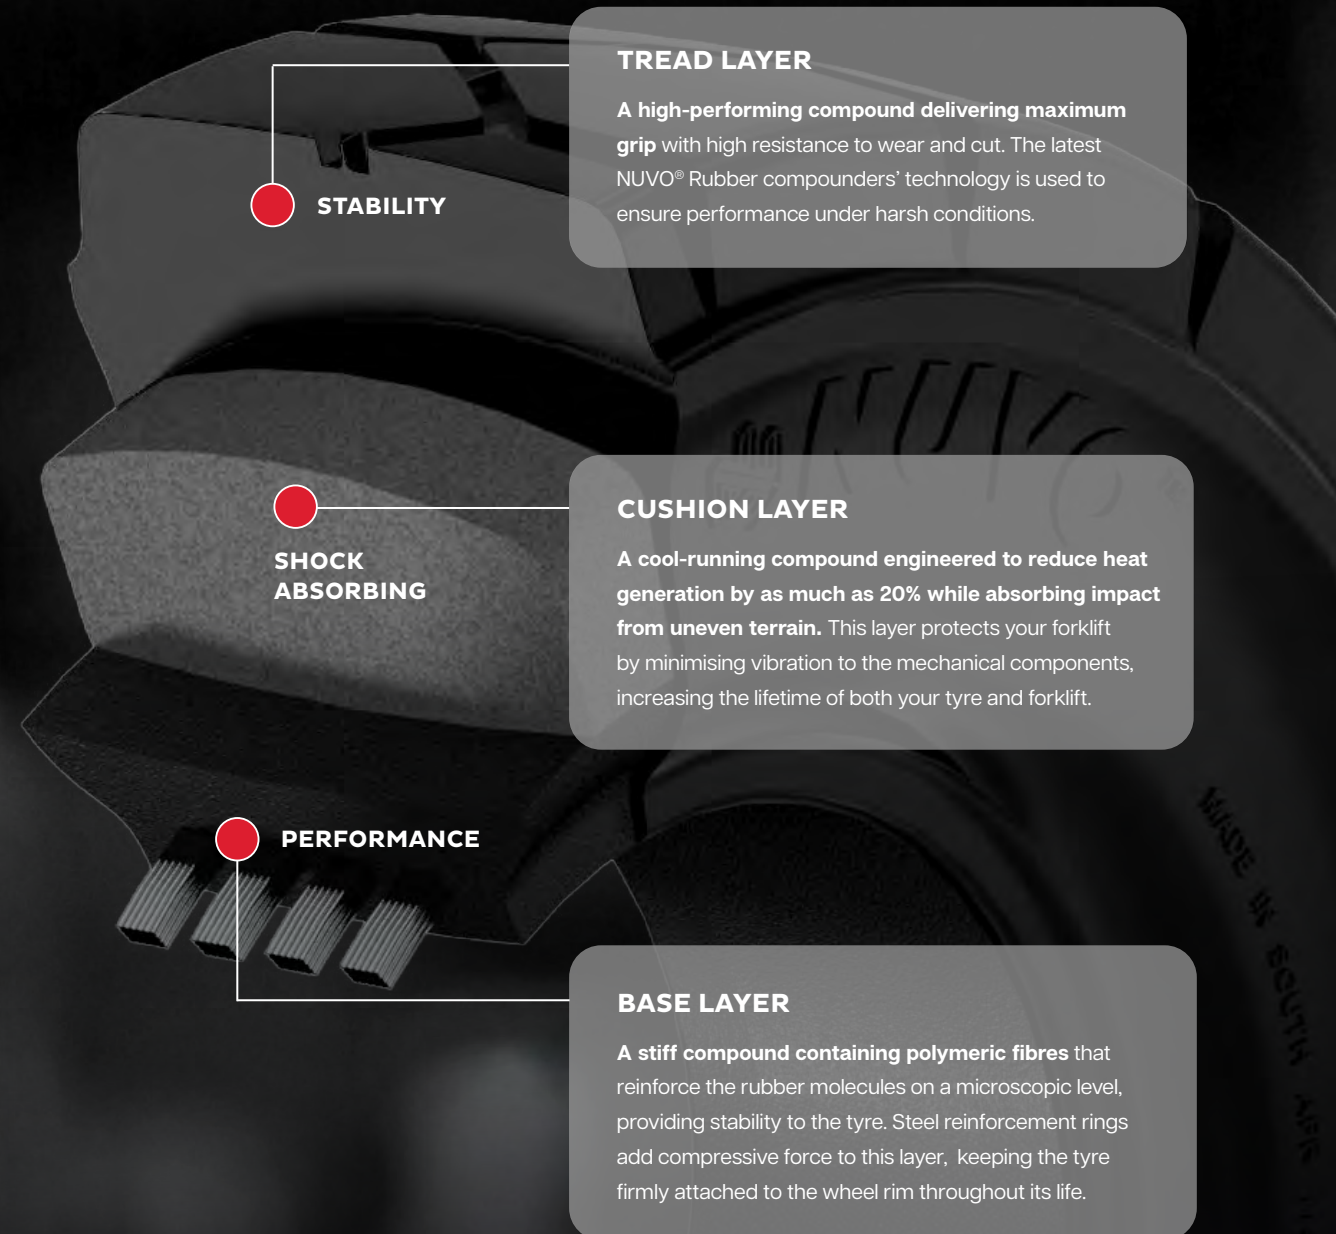

STEEL RING REINFORCEMENT:

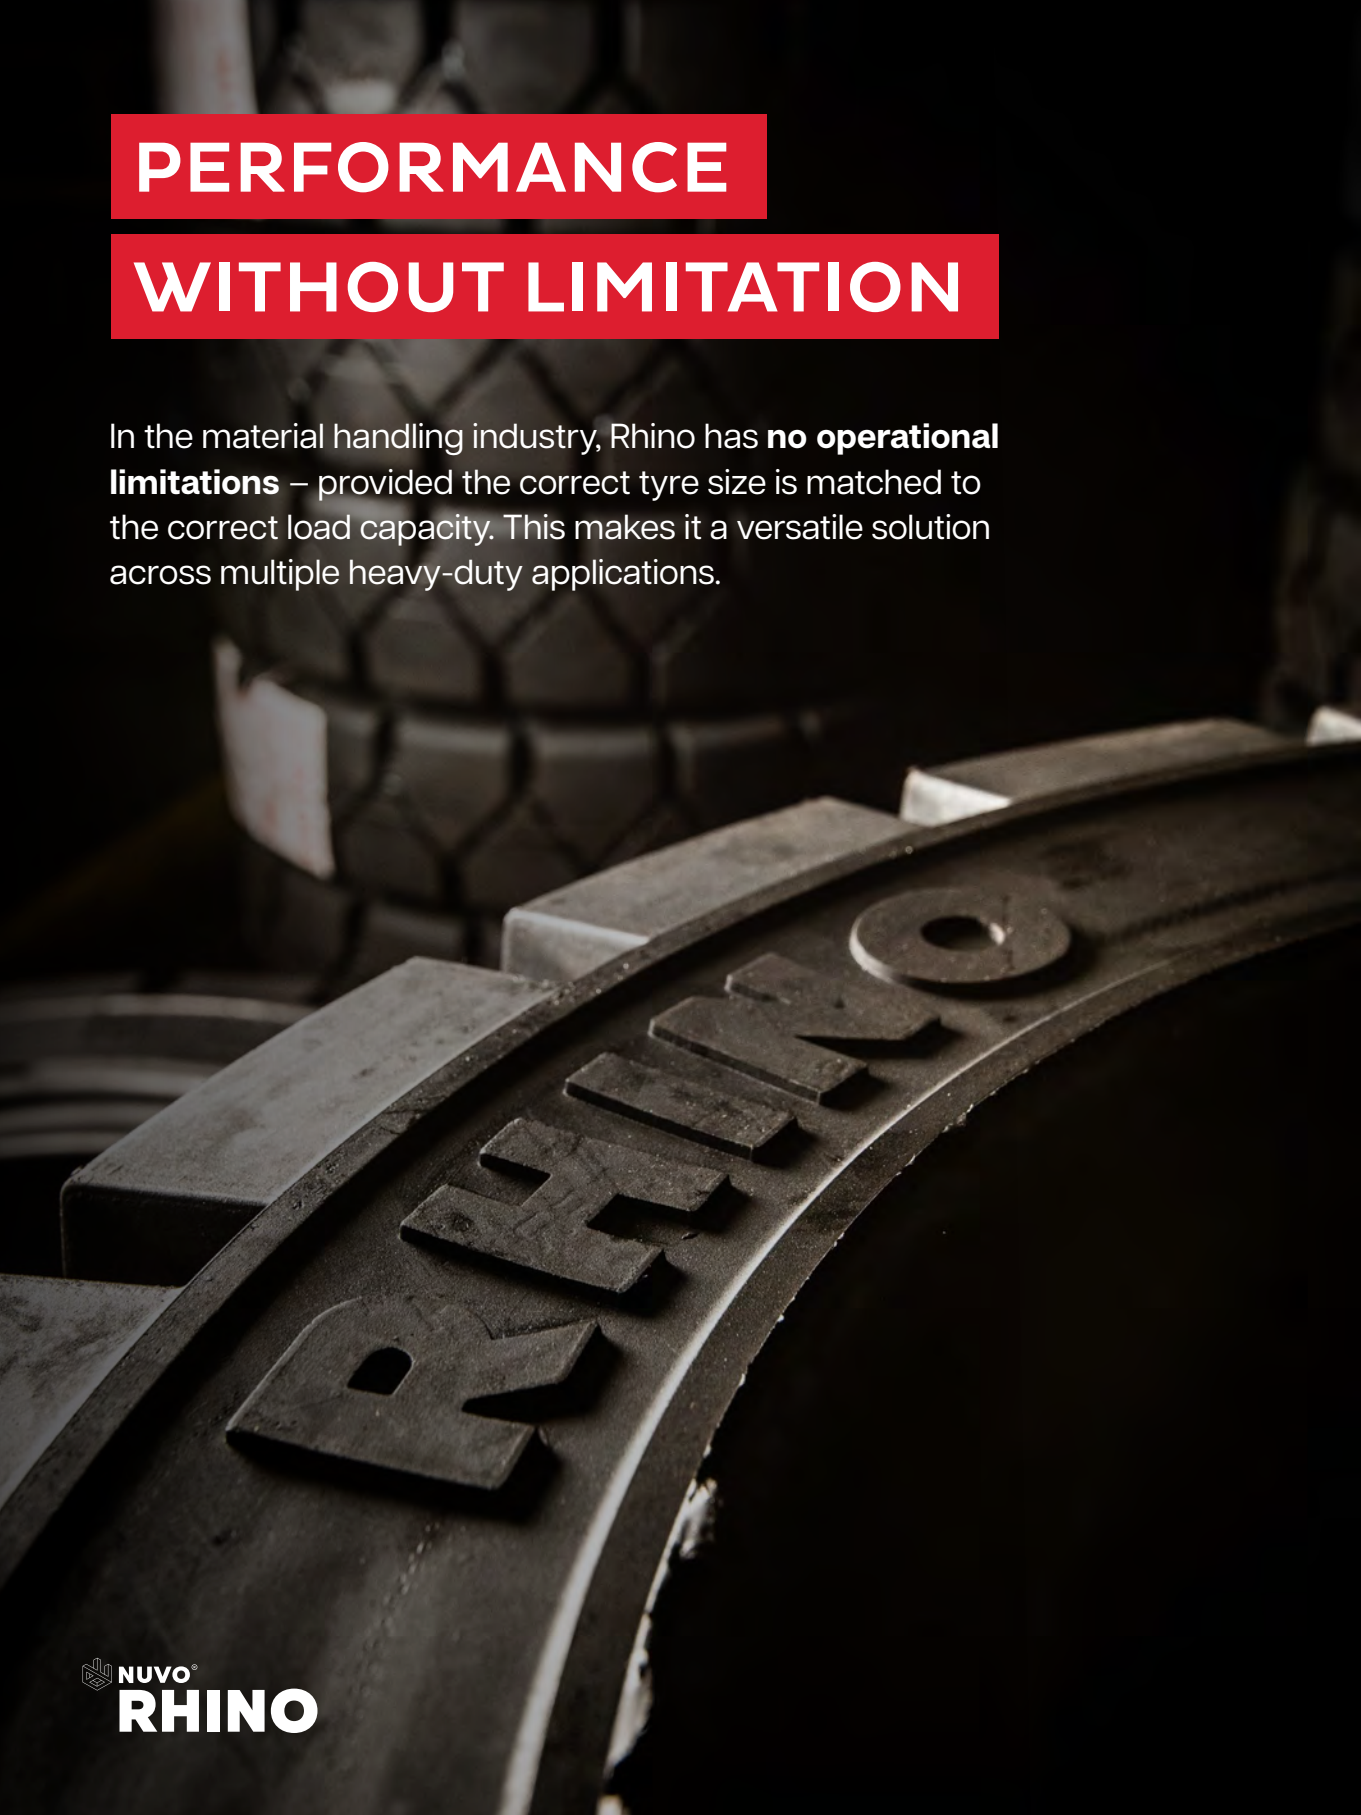

Ensures structural integrity and prevents rim slippage under extreme conditions.

Every Rhino tyre is manufactured using NUVO®'s advanced mixing technology and strict quality control systems, ensuring consistency from batch to batch.

THREE LAYERS, THREE COMPOUNDS

PERFORMANCE

WITHOUT LIMITATION

In the material handling industry, Rhino has **no operational limitations** – provided the correct tyre size is matched to the correct load capacity. This makes it a versatile solution across multiple heavy-duty applications.

LOCALLY

MANUFACTURED.

CONSISTENTLY

AVAILABLE.

 NUVO[®]
RHINO

THE SUPERIOR CHOICE FOR INDUSTRIES THAT RUN HARD

NUVO[®] SOLID TYRES

Built locally | Engineered for consistency | Designed to keep industry moving.
